

# Why is Condomania the fastest growing condom supplier in the NHS?

For a number of years Condomania has offered a wide choice of quality condoms and lubricants, and in consultation with professionals within the NHS has developed its own brand of quality condoms.

We have listened to all the problems that people have with conventional condoms and produced an innovative range that will help to meet many of your clients needs. Condomania condoms are...

- **Specially manufactured to decrease the risk of allergy by a process that reduces the level of protein in the latex**
- **Produced to an enhanced formula that creates a silk-like latex**
- **Available in a large range of shapes and sizes to cater for most needs**
- **Readily available direct from ourselves**
- **Vegetarian Society approved and suitable for both Vegetarians and Vegans**
- **CE marked and conform to European standards.**

[www.condomania.co.uk](http://www.condomania.co.uk) offers good background information about the company and the services which we are able to provide our customers, including the opportunity to download posters for your clinics.

Condomania also have a mail order service which allows confidential and fast delivery of a huge range of products for consumers at very competitive prices.
