

# Vegetarian Condoms...

## ...are you sure?

**“Yes, the team at Condomania have been working hard to ensure that not only their entire range of condoms but even their lubricating jelly is now Vegetarian & Vegan friendly !!”**

5000 people a week in the UK are joining the veggie revolution and dropping meat completely from their diets. We here at Condomania understand the needs of our consumers and have therefore invested heavily to make sure that all Condomania products are completely Vegetarian Society approved.

12% of young people are now vegetarian and in the last ten years the number of vegetarians in the UK has more than doubled. No longer should the need of this ever growing sector be ignored, and Condomania have made sure that a wide range of Flavoured/Coloured and shaped condoms are now available.

**For more information or to order Condomania Condoms or Sutherland Lubricating Jelly please call: 01635 874393 or visit [www.Sutherlandhealth.com](http://www.Sutherlandhealth.com)**
